COR Training for CTIP and Ethics Courses.

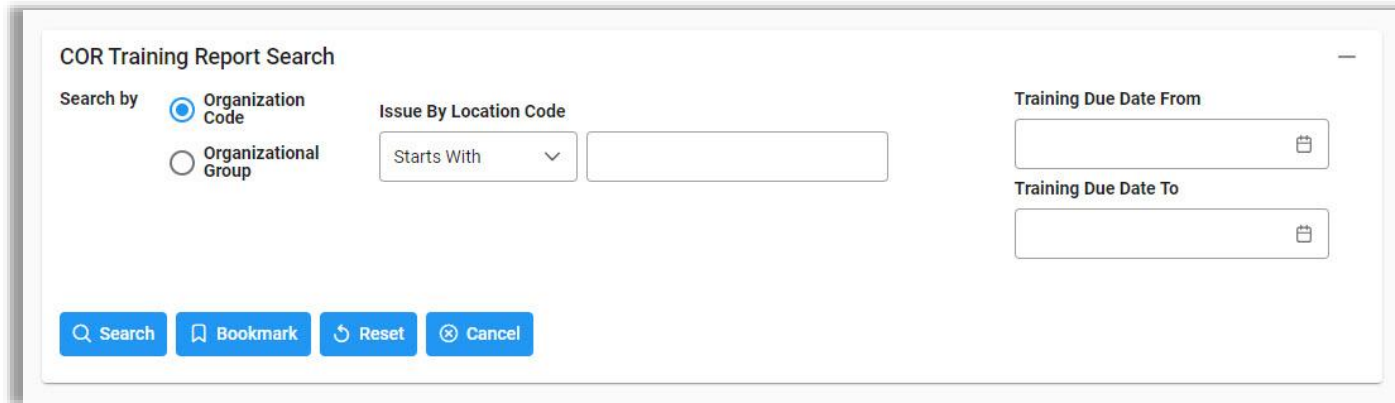

EDA Roles

Roles with access to the COR Training Report:

- Advanced Reporting
- Acquisition Sensitive Reporting (High Level Agency Personnel only)
- EDA Executive Reporting User (High Level Agency Personnel only)

Search Criteria

On the COR Training Report Search page, enter search criteria and select the **Search** button to retrieve desired data.

The screenshot shows the 'COR Training Report Search' form. It includes a 'Search by' section with radio buttons for 'Organization Code' (selected) and 'Organizational Group'. The 'Organization Code' section has a sub-section 'Issue By Location Code' with a 'Starts With' dropdown and a text input field. The 'Organizational Group' section has a sub-section 'Issue By Organizational Group' with an 'Include Subgroups?' checkbox. There are also date pickers for 'Training Due Date From' and 'Training Due Date To'. At the bottom are buttons for 'Search', 'Bookmark', 'Reset', and 'Cancel'.

Form fields:

- Search by
 - Organization Code
 - Issue By Location Code
 - Organizational Group
 - Issue By Organizational Group
 - Include Subgroups?
- Training Due Date From
- Training Due Date To

- CTIP Training Due Date

Exporting Search Results

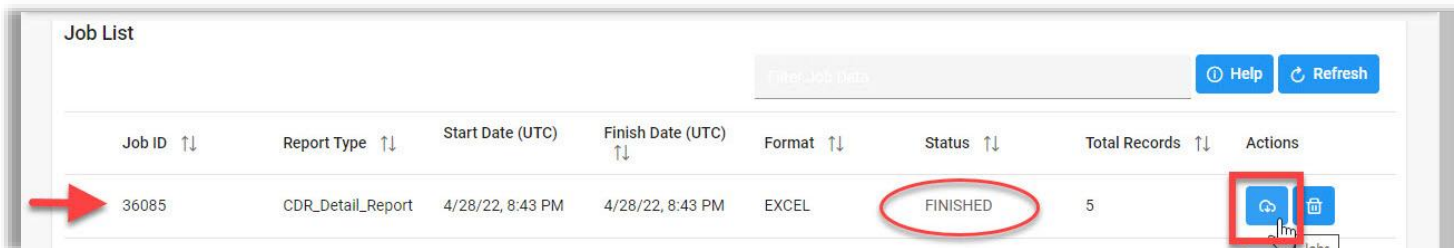

Select the **Export** button on the search results page to export as CSV or Excel. A job runs to download the file.

In the navigation panel, navigate to Tasks > Task Download.

The Job List page appears. Select the **Download** button in the Actions column.

The Download Files modal appears with job details. Select the **Direct Download** link in the Direct Download column. The file will be downloaded to the local machine based on browser settings.

Part: If you don't see all the parts available then it means that the data are still being extracted. This usually happens for a huge amount of data extraction.

Download: Using 'Direct Download' will allow you to download artifacts in parallel and download speed will be significantly faster for large artifacts.
Use 'Download via EDA App' option if you run into any firewall issue.
