**Exporting Search Results**

Click the **Export** button on the search results page to export as CSV or Excel. A job runs to download the file.

### Viewing Available Downloads of Reports:

In the navigation panel, under the Tasks menu, select **Task Download**.

The Job List page appears. Click the **Download** button in the Actions column.

The Download Files pop-up appears with job details. Select the **Direct Download** link in the Direct Download (faster download) column.

Part: If you don't see all the parts available then it means that the data are still being extracted. This usually happens for a huge amount of data extraction.  
Download: Using 'Direct Download' will allow you to download artifacts in parallel and download speed will be significantly faster for large artifacts.  
Use 'Download via EDA App' option if you run into any firewall issue.  
Exported zip files may need to have their names shortened to unzip due to a file path limitation in Windows.
