This presentation is an overview of GFP IUID Contractor Queries.

The IUID Registry maintains the history of each reported item, and this history is accessible for online queries. The resulting data returned from a query is determined by the user's access level. Query option is available to Contractor, Inquiry, Legacy Submitter and IUID HAM roles. This demonstration will be showing some queries as the Contractor role. Please see the other demonstration for more query options. Click the Queries link.

 ID Registry
 Metric Werther Werth

The GFP Reconciliation Query provides information on current custodial status for all items in the IUID Registry under a given contract. Click the GFP Reconciliation Query link.

Enter a Costadial Daia		Click the C	ontinue link.	

Enter a Custodial Prime Contractor ID. Enter a CAGE or DUNS for a list of all associated contracts and items. Enter a CAGE or DUNS with a Contract Number and/or Custodial Contract Order Number for a list of items on that contract or order. Result Type is an optional selection: Items with UIIs or Items without UIIs. Click the Continue link.

The GFP Reconciliation Query - Results Screen is displayed. This result shows a list of contract numbers. If a contract number had been included in the search, only items under that contract number would be listed in the contract number column. Click on the UII to display the same information as that provided under the Single Item Query. If the user does not have access to those UIIs, they will be grayed out and inactive.

If the contractor submitted Non-UII data, that information will be available on the Non-UII Results tab. Click the Non-UII Results link.

	HQ033916L0930	RRRLOSEECP07960915	1		EA	At Government	2016-05-18	Q All Q Line

If records are found on the Non-UII Results tab, they will include Contract Number, Contract Order Number, quantity, UII, unit of measure, status, and effective date. GFP Reconciliation Query shows UII action from non-UII screen and allows view of nonUII bin from UII screen where UII came from a non-UII bin. From the returned list, you can select the bin where the item resides and add the UII and one or two conditions to the item. Select a bin by clicking on the All link in the View Detail column. The bin record opens to display all of its details.

The GFP Custody Query by Contract allows the user to enter a contract number under which items have been furnished as GFP, a custodial contract order number, and an effective date and display all UIIs and their descriptions, the GFP prime contractor, and the sent and received dates. The GFP Custody query provides the same information as that provided under the Composition Query for children. Children can be viewed using the "View Children" link on the query results page. In addition, Non-UII GFP data can also be viewed in the GFP Custody Query - Contract. Click the GFP Custody By Contract Query link.

The GFP Custody Query - CAGE/DUNS/DoDAAC initial query returns only the applicable end items, not embedded items. Results include any items in the custody of a DoDAAC associated with the CAGE or DUNS entered. In addition, this query provides the same information that is provided by the Single Item Query and Composition Query.

Select criteria to search by from the Search By drop-down menu. Options are By Contract or By Document.

Search By Contract uses GFP Prime Contractor (required), Contract Number, Contract Order Number, National Stock Number, Part Number, and Ship-To Date. Search by Document is similar to Search by Contract with the following exceptions: * GFP Prime Contractor is not required.

* One of National Stock Number or Part Number is required.

* A Ship-To Address field is added

Additional Criteria search fields are optional entries.
