Click the 'Next' button to continue the process.

The Roles screen displays; add new roles during this step. Roles selected for reactivation from the previous step are in the Role Summary section below in a read-only state. If an existing role needs a new Location Code or Group, delete the role from the Role Summary section. Add as a new role with the updated Location Code/Group.

Adding New Roles:

Step 1. Select the appropriate Application from the list below

- Step 2. Select One or More Roles from the list below (Ctrl+Click)
- Step 3. Click 'Add Roles'

Step 4. Fill Out the Required information for the applicable applications

Successfully Submitting a User Account Reactivation Request for existing roles and new roles direct the user to a Success screen with the information for the selected role applications. The user account is in the **'Pending Supervisor Approval'** status. An email is sent to the user's Supervisor with the role(s), informing them the user account is requesting reactivation. The User Account Reactivation Process continues with the Supervisor reviewing the request.

The Success Message Contains the Applications registered for, e.g.,

You have successfully submitted roles for reactivation for the following applications:

• WAWF – Wide Area Workflow

| Submit Success | Success I Info: The user's profile has been successfully set to Pending. Usu have successfully submitted roles for reactivation for the following applications: Outpre-Coverment Funished Property: WMWF - Wide Area Workflow |
