

Welcome to Wide Area Workflow e-Business Suite. This demonstration contains audio narrative. Please adjust your volume accordingly.

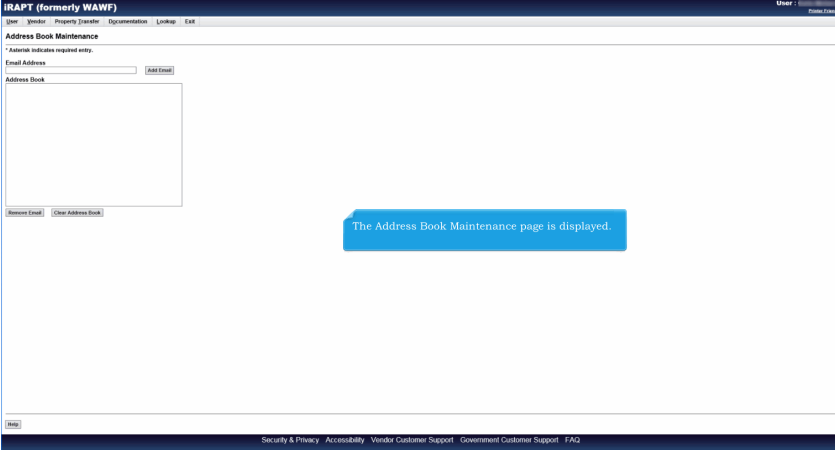

This demonstration provides an overview of the Address Book Maintenance section. The iRAPT User can add and remove email addresses within their Address Book using the Address Book Maintenance link under the User dropdown. The Address Book is used when you want to send additional emails after document creation.

The User selects the Address Book Maintenance link from the User dropdown menu.

Or the User selects the Address Book Maintenance link after clicking the User dropdown menu.
