

Welcome to Wide Area WorkFlow e-Business Suite.  
This demonstration contains audio narrative, please adjust your volume accordingly.

This presentation provides an overview of ECP0793, Auto View Only Role.

A "View Only Folder (Contract Number)" folder has been added to iRAPT which allows view only roles to search and view any contract in iRAPT as long as they know the exact Contract Number.

This View Only access is restricted to Contract Numbers based on a user's registered/active location codes.

In addition, this folder will be available to the following roles:

Acceptor, Field Inspector, Inspector, Pay Official, CV Approver, Government Property Shipper, Government Receiver, Grant Approver, Local Processing Official (LPO).

A DoDAAC/Extension field has been added to the search screen.

Users will be limited to their active location codes for each role.

If no DoDAAC is selected, the query will return all documents matching Contract Number and/or Delivery Order as long as at least one document contains an active, registered location for the user's role.
