

Welcome to Wide Area Workflow e-Business Suite. This demonstration contains audio narrative. Please adjust your volume accordingly.

A screenshot of the WideAreaWorkFlow e-Business Suite 5.8.0 interface. The page has a dark blue header with the logo and title. Below the header, there are several sections: "Certificate Login" with a "Certificate Login" button, "User ID Login" with a "User ID" input field, and "System Messages" which displays a message from 2013-01-17 00:00:00. A large blue text box is overlaid on the interface, containing the text: "This presentation provides an overview of ECP0837, Self Registration for IGT Roles. The purpose of this ECP was for iRAPT to create an automated workflow for an Intra-Governmental (IGT) Performance Evidence document. This document is based on the current Receiving Report (RR)." Below the text box, there are logos for various agencies: iRAPT, EDA, eBusiness, IIGD, ECRIT, eMPPR, MRS, NCCS, and Connect. At the bottom, there are sections for "Quick Links" (Security and Privacy, Accessibility, Governmental Customer Support, Vendor Customer Support), "Getting Started Help" (Machine Setup, Vendors Getting Started, Government Users Getting Started, Government Support Contact/Link Getting Started), and "iRAPT Mobile" (Apple App Store, Google Play, BlackBerry).

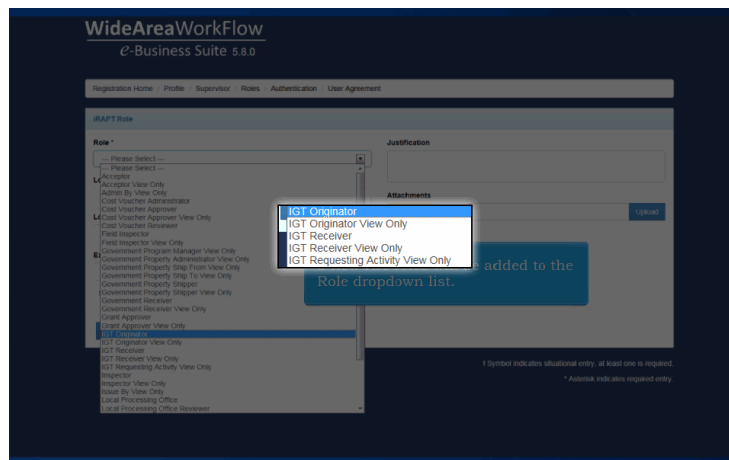

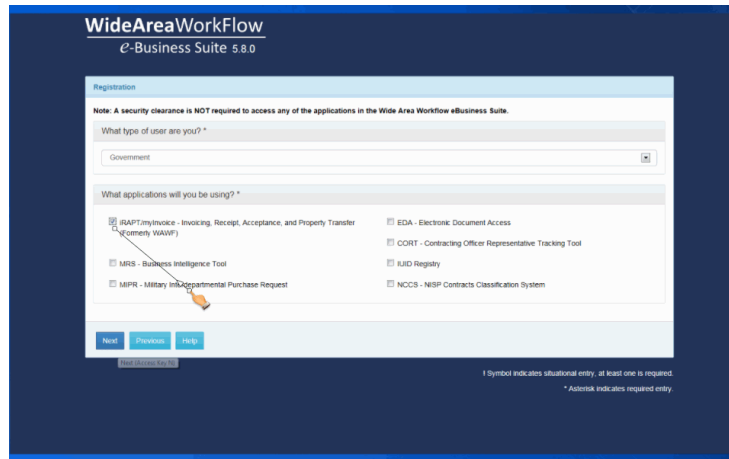

This presentation provides an overview of ECP0837, Self Registration for IGT Roles. The purpose of this ECP was for iRAPT to create an automated workflow for an Intra-Governmental (IGT) Performance Evidence document. This document is based on the current Receiving Report (RR).

The User clicks the Register button.

Next, the User selects Government or Government Support Contractor and selects the iRAPT application.

5 new IGT roles will be added to the Role dropdown list.

IGT users will be able to register with a DoDAAC, Federal DUNS Number, or MAPAC (IGT Receivers, IGT Receivers View Only, and IGT Requesting Activity View Only).

When selecting the Location Code Type Federal DUNS Number, the Location Code must be 9 positions long. If DoDAAC or MAPAC is selected, existing iRAPT edits will apply.
